

Combined CCTV Survey & Integrity (smoke) Testing Course

The Guild has recognised that there is a lot of duplicated information regarding CCTV Survey and Integrity (smoke / pressure) testing. With this in mind these two subjects are now cleverly combined in a one day course saving candidates time and money.

This comprehensive course will help professional sweeps better understand the particular issues and specific requirements when undertaking chimney survey and testing work. The responsibilities and insurance liabilities element leaves no doubt as to what is required of the professional sweep who undertakes this type of work. In line with the Guild's commitment to improve industry standards it is open to all, regardless of association / trade affiliation. There is an attractive discount for Guild members.

- Indemnity insurance
- Documentation / recording of findings
- Producing reports
- Types of survey
- Required equipment and tools
- Equipment practical (hands on with various camera systems etc.)
- Safety considerations
- Common faults and findings

Candidates receive a comprehensive manual with useful pictures, specimen certificate and document recording forms. A certificate of attendance will be issued.

The course costs **£250** inc. VAT – there is an excellent discount for Guild members. Lunch and all refreshments included.

For further details / booking - please see the Training page on the Guild website or contact Guild Training Director David Woofindin on **01226 242357**
